PROFESSIONAL SUMMARY

IT Support Specialist with hands-on experience in IT support through freelance work, an IT Staff internship, and an IT Staff role. Experienced in troubleshooting hardware, software, printers, and network connectivity, installing and configuring Windows systems, and providing remote and on-site technical support. Proficient in PHP, MySQL, HTML, CSS, and JavaScript, with a strong commitment to delivering reliable IT solutions and excellent customer service.

PROFESSIONAL EXPERIENCE

Freelance Technical VA (Part-Time | Remote) Jan 2020- Present

- Provided remote technical support using AnyDesk and other remote desktop tools, resolving technical issues efficiently and minimizing client downtime.
- Installed and configured Windows operating systems and software applications, ensuring devices were ready for immediate use.
- Diagnosed and resolved hardware and software issues for international clients, improving system stability and user productivity.
- Performed preventive maintenance and system optimization, enhancing computer performance and reliability.
- Prepared user guides and technical documentation, helping clients understand and troubleshoot common technical issues independently.
- Assisted clients with troubleshooting printers, networking, and application issues, ensuring smooth day-to-day operations.

IT Staff | Circle Asia Trading Corporation May 2026 - Jul 2026

- Provided technical support for warehouse and office staff, reducing operational disruptions and supporting uninterrupted business operations.
- Installed, configured, and troubleshooted computers, printers, and software, ensuring reliable performance of workplace systems.
- Performed preventive maintenance and assisted with daily IT operations, helping prevent equipment failures and maintain system reliability.

IT Staff Intern / IT Support | Metro North Medical Center and Hospital Feb 2025 - May 2025

- Installed and configured desktop computers, printers, and network devices, ensuring reliable access to IT resources across multiple departments.
- Diagnosed and resolved hardware, software, and LAN connectivity issues, minimizing downtime and maintaining uninterrupted hospital operations.
- Installed CCTV cameras and configured wireless access points, improving network connectivity and workplace security.
- Assisted in maintaining the hospital's IT infrastructure, supporting stable and reliable IT operations across multiple departments.
- Assisted in creating the user manual and technical documentation for the Human Resources Ticketing System (HRTS), improving system usability and supporting future maintenance.
- Provided technical support and troubleshooting assistance to end users, resolving technical concerns promptly and improving user productivity.

TECHNICAL SKILLS

- IT Support: Windows 10/11 • Microsoft Office • Hardware & Software Troubleshooting • Computer Setup • Printer Support • LAN/WAN Networking • AnyDesk • TeamViewer • Remote Desktop Support • Technical Documentation • End-User Support • Preventive Maintenance • CCTV Installation
- Web Development: PHP • MySQL • HTML • CSS • JavaScript

PROJECTS

Human Resources Ticketing System (HRTS)

PHP | MySQL

- Developed a web-based ticket management system to streamline HR support request submission and tracking.
- Designed and implemented a centralized database to improve ticket organization and monitoring.
- Created database-driven workflows to simplify support request management and enhance operational efficiency.
- Prepared user documentation to support system adoption and future maintenance.

CLiMS (Cooperative Loan Management System)

Project Manager | Full Stack Developer

PHP | MySQL | HTML | CSS | JavaScript

- Led a four-member development team in building a web-based cooperative loan management system.
- Designed the system architecture and MySQL database to support secure and efficient loan processing.
- Developed loan processing, authentication, and reporting modules to automate key business operations.
- Built responsive user interfaces and coordinated project implementation to ensure successful project delivery.
